355 W. N. Temple

Salt Lake City, Utah 84180-1203

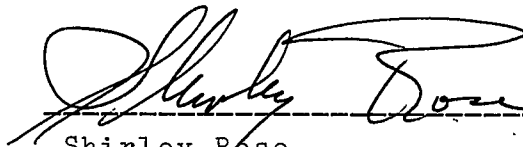

Dear Mr. Shepherd;

In answer to your letter dated April 11, 1989. You stated that you visited the Brown Rose Mining site on March 28, 1989, and thought it was abandoned.

It is not abandoned. We have had it closed down due to winter conditions and an additional testing program. We moved the old trailers out, and are going to tear down the frame building because we are going to build some nice buildings in there. We are in the process of locating the equipment we need and will begin operations again, sometime around the first of June. We fenced our ponds because we will be cleaning them out to use for water storage.

I hope this will reassure you that we are not abandoning any of our projects down here. We have tore down buildings and moved some old trailers out in order to build some nice buildings.

Thank you,

  
Shirley Rose  
President/Brown Rose Mining
